Students must select their graduation project topic and have it approved by their supervisor.

For mid term assessment of your progress you will write a research proposal.

This document must be submitted to your Graduation Projects Co-ordinator by 24th April 2009/17:00 h. This assessment forms 15% of your final grade for this course.
A Research Proposal should include the following:

- Student Number & Name
- Supervisor’s name
- Project Title
- abstract
- Introduction to Project
  - overview
  - objectives
- literature review
- feasibility study
- methodology
  - design
  - implementation
  - testing
  - evaluation
- project planning
  - division of work
  - Gannt chart
- Tools to be used in Project
  - hardware
  - software
- conclusions and recommendations
- references
- bibliography
- appendices
